AI Deal Hunter

CASCADIA CODERS - NEHA, UMA & JACKIE

Your Smart Shopping Assistant That Saves You Money. Buy now? or wait.

The Problem

Shoppers waste hours tracking prices across multiple sites, missing flash sales and limited-time offers. The constant comparison shopping leads to decision fatigue, while the best deals slip away unnoticed.

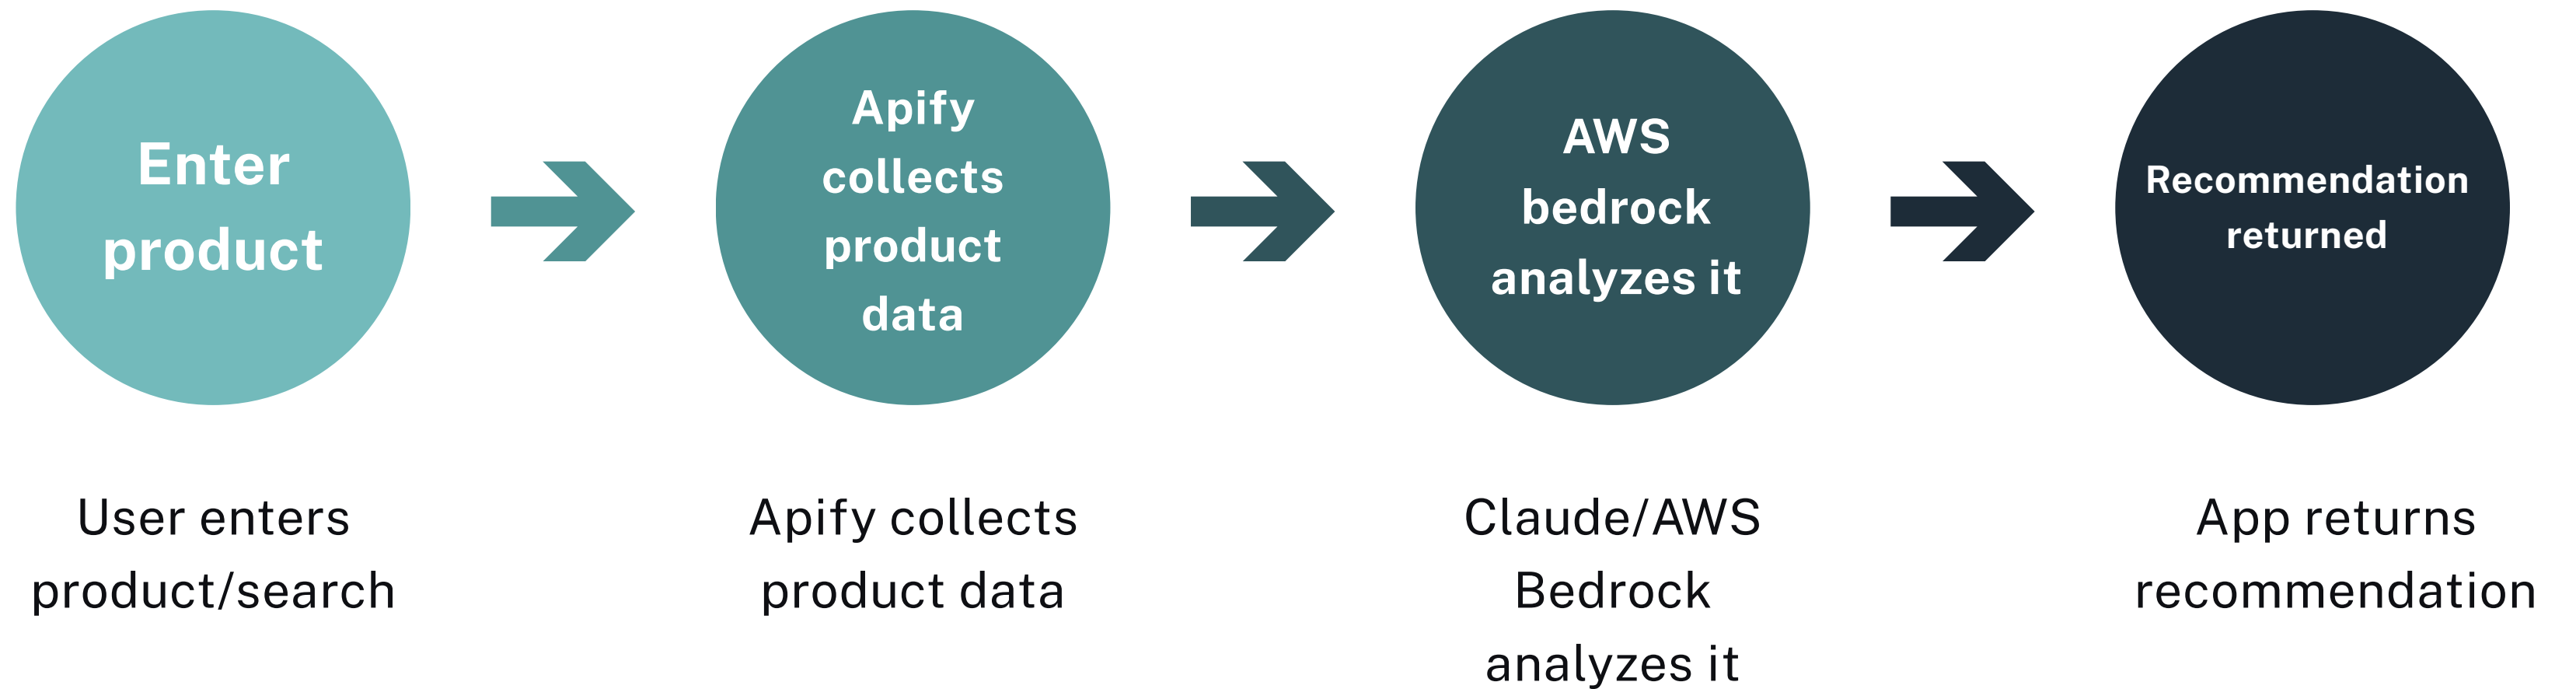

The solution

Our app creates a deal report card from a product link or search query.

It helps answer:

Is this actually a good deal?
